Settle down in Lyon, France

Segmentize districts using Python

The problem

I will move myself into Lyon, in order to pursue an MBA. The program will be on a campus located at Ecully district, which is placed outside of Lyon center.

So, in order to be around campus and have a full French experience, I need to segmentize districts based on their distance to campus and their trending places around.

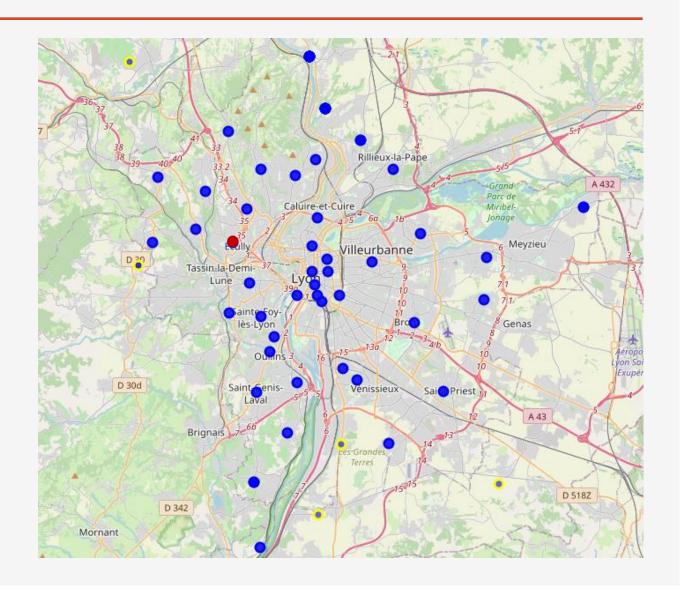

First overlook

Lyon has 66 districts

Ecully is located at the west of the center of the city, which it is supposed to have greater number of trending places.

The mission is to segregate these districts using kmeans in order to get a short list of district to look at to rent a place, that makes compatible studying and enjoying in Lyon

Methodology

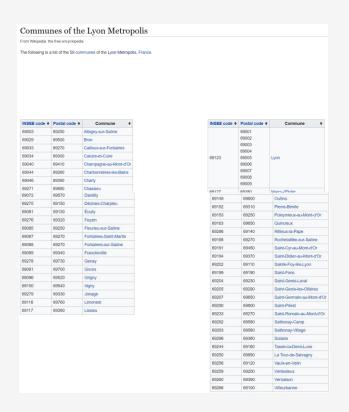

- Get the data from *Wikipedia* and then deploy it before using.
- 2 Use *pgeocode* to get the **coordinates** and **distance** to campus district for each district
- Use *foursquare* query to rank each district with the **number of venues**.
- 4 Use *kmeans* to segmentize the district using **distance** and **number of venues**.
- Map the results to analyze and conclude.

Data acquisition and cleaning

https://en.wikipedia.org/wiki/Communes of the Lyon Metropolis

Data deployment

df.head(10) In [87]: Out[87]: Postal code Commune 69250 Albigny-sur-Saône 69500 Bron Cailloux-sur-Fontaines 69270 69300 Caluire-et-Cuire Champagne-au-Mont-d'Or 5 69260 Charbonnières-les-Bains 69390 Charly 69680 Chassieu Collonges-au-Mont-d'Or 69660 9 69960 Corbas

Getting coordinates and distance using geocode

Old DataFrame

In [87]:	df.he	ad(10)	
Out[87]:	Po	ostal code	Commune
	0	69250	Albigny-sur-Saône
	1	69500	Bron
	2	69270	Cailloux-sur-Fontaines
	3	69300	Caluire-et-Cuire
	4	69410	Champagne-au-Mont-d'Or
	5	69260	Charbonnières-les-Bains
	6	69390	Charly
	7	69680	Chassieu
	8	69660	Collonges-au-Mont-d'Or
	9	69960	Corbas

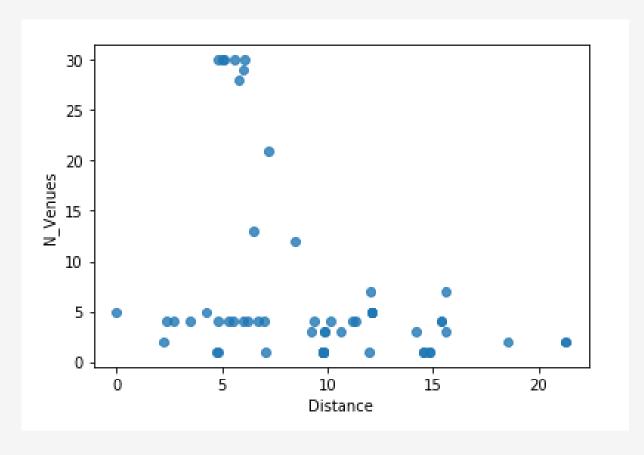

New DataFrame

In [92]: df.head(10) Out[92]: Commune latitude longitude: Distance Postal code Albigny-sur-Saône 45.8782 4.834533 12.136730 69250 Bron 45.7333 4.916700 12.047306 69500 Cailloux-sur-Fontaines 45.8500 4.846833 9.824269 69270 3 Caluire-et-Cuire 45.7904 4.841100 5.343529 69300 Champagne-au-Mont-d'Or 45.7955 4.785700 2.193151 Charbonnières-les-Bains 45.7842 4.746300 2.339509 69390 Charly 45.6469 4.791625 14.558567 Chassieu 45.7458 4.970900 15.610449 69680 Collonges-au-Mont-d'Or 45.8220 4.839800 7.077836 69660 9 Corbas 45.6679 4.896300 15.392917 69960

Variable for segmentizing

Use Foursquare to get the number of Venues of each district

	Postal code	Commune	latitude	longitude	Distance	N_Venues
0	69250	Albigny-sur-Saône	45.8782	4.834533	12.136730	5.0
1	69500	Bron	45.7333	4.916700	12.047306	7.0
